## Library

The library was established in 1971. It has the necessary infrastructure and facility to meet all the requirement of the Students, Faculty members, Researchers etc.

Library has in its possession, exclusive books on every Homoeopathic and allied subjects. Some of these books are rarely available in the market. The library is regularly updated. The numbers of books available at present are 17,373.

The digital library for National and International publications is available, to meet the multidimensional requirements of all students and faculty members.

The library is computerized with the use of OPAC Software and E- resources.

Students and Staff can avail complimentary access for Digital library -Knimbus

The separate reading hall arrangement is available for U.G, P.G students and Faculty.

Book bank scheme is available for Economical Backward Students and students of Reserved Category.

Book Exhibition is organized by department of Library where all text book, reference book are made available from various publishers for the benefit of Students / Faculty for their easy purchase.

To promote the use of library, Students are motivated by giving them prizes annually as voracious readers from UG and PG.

The Institute publishes a quarterly bulletin 'DSHMC Words' which is incorporating scientific articles by the faculty members, Under Graduate students, Interns and Post Graduates trainees.
